If user choose "No", do not do anything. If user choose "Yes", remove the chosen row from the list table, then inform user that it has been deleted successfully as per screenshot.

The screenshot shows a web application interface for student management. At the top, there's a navigation bar with links like 'Using Log4Net or ca', 'Mod', 'about openCV: C', and 'M Assembling a'. Below this is a form for adding a new student. The form includes fields for 'Student Name', 'Student DOB' (with a date picker), 'Student Gender' (radio buttons for Male and Female), 'Student Language' (checkboxes for English, Vietnamese, Japanese, Chinese, and French), and 'Student Class' (a dropdown menu showing 'C1608G' and an 'Add Class' link). There is also an 'Add' button. Below the form is a section titled 'Student List' containing a table with columns: Name, Class, DOB, Gender, Language, and a 'Delete' link. The table lists three students: Nguyen Van A, Tran Thi B, and Pham Thanh C. At the bottom right of the table, it says 'Total: 3 students'. A dialog box is overlaid on the form, displaying the message 'This page says Data deleted successfully!' with an 'OK' button.
